

Djordje Gligorijevic

"Research = Fun"

2145 Hamilton Avenue San Jose, CA, USA

Applied Research Manager, eBay

gligorijevic@temple.edu

<https://gligorijevic.science/>

Education

- **Temple University** Philadelphia, PA, USA
Doctor of Philosophy (PhD), 2013 - 2018
 - Major: Computer & Information Sciences (CIS) Dept., College of Science and Technology
 - Concentration: Machine Learning and Data Mining
 - Graduation date: July 2018
 - Dissertation title: Predictive Uncertainty Quantification and Explainable Machine Learning in Healthcare
- **University of Belgrade** Belgrade, Serbia
Bachelor of Science (B.Sc.) 2009 - 2013
 - Information systems and technologies, Faculty of Organizational Sciences
 - Graduation date: July 2013

Research Interests

Machine Learning, Spatial and Temporal Data Mining, Structured Regression, Extreme Multi-Label Classification, Natural Language Processing, Analysis of Big Data from Heterogeneous Sources, Integration of Qualitative Knowledge. I have Particular interests in domains of Computational Healthcare and Precision Medicine, Bidding Landscape Prediction and Computational Advertising.

Work Experience

- **Applied Research Manager** eBay Inc. 2145 Hamilton Avenue San Jose, CA 95125
Search Ranking & Monetization, eBay October 2022 – present
 - Managing allocation and pricing team for promoted listings advanced sponsored search program at eBay. Research topics include auction mechanisms, predictive control mechanisms for budget pacing and bid multipliers, and response prediction and ranking machine learning models.
- **Senior Applied Researcher** eBay Inc. 2145 Hamilton Avenue San Jose, CA 95125
Search Ranking & Monetization, eBay November 2021 – October 2022
 - Tech lead for allocation and pricing, responsible for charting short- and long-term research plan and planning product improvements and proposals.
 - Response prediction models for promoted listings advanced advertising program. Developed continual learning low-latency models for eBay search system based on structured and unstructured data used for ads ranking and pricing.
 - Budget pacing. Developed a search system simulator and system implementation for controlling ad spend curves in promoted listings advanced ad campaigns.
- **Research Scientist** Verizon Media, 701 1st Ave, Sunnyvale, CA 94089
Yahoo! Research, Verizon Media July 2018 – November 2021

- As a member of Demand Platforms R&D team: 1) Developed novel conversion prediction models for both prospective and retargeting advertising on trillions of data points, 2) Developed deep algorithms for modeling users' activity trails, and 2) Led science efforts in the bid shading project for first-price auctions bidding.
- As a member of Targeting & Insights team: 1) Developed lightweight and high performing click-through rate model, 2) Led science efforts for contextual conversion prediction and audience building products in the cookieless online world.
- Research resulted in following manuscripts: [P1], [P2], [P3], [P4], [P5], [P6], [P7], [P9]
- Patents and defensive publications: [PT1], [PT2], [PT3], [PT4], [PT5], [PT6], [PT7]

- **Academic Research Collaborator** IQVIA, 1 IMS Dr, Plymouth Meeting, PA 19462
IQVIA *September 2017 – July 2018*
 - Developed novel site selection optimization system for clinical trials with the IQVIA contract research organization, based on deep models for matching clinical trials and investigators.
 - Proposed novel approaches for modeling disease progression from mild cognitive impairment to Alzheimer's disease.
 - Research resulted in following manuscript: [P11]
- **Research Scientist Internship** Oath, 701 1st Ave, Sunnyvale, CA 94089
Yahoo! Research *June 2017 – September 2017*
 - I have re-joined Yahoo Research Ad Sciences team for the summer 2017 internship. Project I worked on was developing a deep click-through rate prediction algorithm for sponsored search and mobile app install advertisements trained on billions of data examples in a distributed environment.
 - Research resulted in following manuscripts: [P10], [P14]
- **Research Scientist Internship** Yahoo! Inc., 701 1st Ave, Sunnyvale, CA 94089
Yahoo! Research *May 2016 – August 2016*
 - I have joined Yahoo Research Ad Sciences team for the summer 2016 internship, during which I have worked on integrating mobile app usage events from Flurry SDK with Yahoo email receipts to provide personalized ad recommendations based on smartphone usage habits of a user. In addition, I collaborated with teammates on developing neural embedding models for location aware sponsored search.
 - Research resulted in following manuscripts: [P16], [P25]
- **Research Assistant** Temple University, Philadelphia, PA, USA
Center for Data Analytics and Biomedical Informatics *Fall 2013 – Spring 2018*

My graduate research program included writing papers, monthly and quarterly reports and attending meetings and workshops on several major grants:

- DARPA funded *Prospective Analysis of Large and Complex Partially Observed Temporal Social Networks*
 - * Modelling predictive uncertainty estimation of Conditional Random Fields for evolving graphs.
 - * Research resulted in following manuscripts: [P18], [P19], [P20], [P21], [P22], [P23], [P24]
- ONR funded *Structured Regression in Complex Networks by Fusion of Qualitative Knowledge and Big Data*
 - * Fusing large scale hospital discharge records databases with medical domain knowledge sources in order to obtain novel and meaningful insights and advance precision medicine.
 - * Research resulted in following manuscripts: [P12], [P18], [P19], [P20]

- NSF funded *BIGDATA: Multi-level predictive analytics and motif discovery across massive dynamic spatio-temporal networks in complex socio-technical systems: An organizational genetics approach*

- * Correlating comorbidity and genetic disease networks across age, gender, and geography from large scale hospital discharge records databases.
- * Research resulted in following manuscripts: [P8], [P18], [P19], [P21]

* Awarded with Outstanding Research Assistant award by College of Science and Technology in 2018, and with gold award on the Future of Computing graduate research competition 2015 by CIS department.

- **Teaching Assistant** Temple University, Philadelphia, PA, USA
Computer and Information Sciences Dept. Fall 2013 – Spring 2017

Served as a teaching assistant for the following courses:

- CIS 2168: Data Structures (Spring 2017, with prof. Andrew Rosen)
- CIS 2033: Introduction to Computational Probability and Statistics (Spring – Fall 2015, with prof. Yuhong Guo, Fall 2016, with prof. Richard Beigel)
- CIS 1166: Mathematical Concepts in Computing I (Discrete Mathematics) (Spring 2016, with prof. Edward Crotty)
- CIS 0823: Math for a Digital World (Fall 2013 - Fall 2014, with prof. Richard Beigel)

* Awarded with the Outstanding Graduate Teaching Assistant award by CIS department in 2017.

- **Undergraduate Teaching and Research Associate** University of Belgrade, Belgrade, Serbia
Laboratory for Multimedia Communication July 2012 – May 2013

- Computer networking and telecommunications – Fall 2012 class, assisting professor and teaching assistants during labs and exams.

- **Undergraduate Teaching and Research Associate** University of Belgrade, Belgrade, Serbia
Laboratory for Artificial Intelligence October 2011 – May 2013

- Open-source development of neural network software tool: Neuroph Studio; Research on Semantic Web annotations and its applications; Assisting professors in grading during exams.

Awards, Grants & Honours

Runner-up Best Paper AdKDD 2019 workshop	2019
Outstanding Research Assistant Award, <i>College of Science and Technology</i> , Temple University	2018
SIGIR conference Travel Award	2018
Outstanding Graduate Teaching Assistant Award, <i>CIS department</i> , Temple University . . .	2017
Future of Computing graduate research champion, <i>CIS department</i> , Temple University . . .	2015
Runner-up Best Doctoral Forum Poster SDM 2015	2015
SDM conference Travel Award	2015
Fellowship for Graduate Students, Republic of Serbia	2013–2017
Dean’s List of Distinguished Students	2010–2013

Extracurricular Activities & Services

My talks, attended conferences, workshops and symposiums (attendee/presenter/lecturer):

- Keynote ‘Deep Learning Methods for Modeling User Behavior in Display Advertising ’ at IEEE CCWC 2022, January 2022, Virtual
- Talk “Explainable Machine Learning in Healthcare” at City AI Kragujevac, May 2020, Virtual
- Course “Machine Learning and Data Mining in 900 minutes or less” taught to Verizon and Verizon Media’s engineering teams in Bangalore and Hyderabad, 26th Nov. 2018. – 7th Feb. 2019.
- Talk “Deep Attention Model for Triage of Emergency Department Patients” at Data Science Conference 4.0, September 2018, Belgrade, Serbia

- Talk “Modeling Uncertainty in Structured Regression” at Yahoo Research, August, 2017, Sunnyvale, CA USA
- Talk “Modeling Qualitative and Quantitative Knowledge in Health Informatics” at 2017 Sinteza conference, Singidunum University, April 21st, 2017, Belgrade, Serbia
- Talk “Predictive Modeling of Dynamic Networks” at 2016 Computational Research on-and Beyond Owlsnest (CROO) Symposium, College of Science & Technology, Temple University, April 15th, 2016, Philadelphia, PA USA
- Talk “Structured regression on partially observed evolving graphs with uncertainty propagation” at DARPA GRAPHS/SIMPLEX Workshop: Data, Algorithms and Problems on Graphs, September 28th, 2015, Columbia University, New York, NY
- DARPA GRAPHS PI Meeting/Workshop 21-24 July 2014, Arlington, VA, USA
- DARPA GRAPHS Kick-Off/Special Project Workshop 13-14 May 2014, Arlington, VA, USA
- Attendee on conferences: SDM '14, SDM '15, AAAI '15, SIGIR '18, WWW'19, KDD '19, ICML'20, KDD'20
- Reviewer: AMIA '16, '17, '18, '20, '21, ICDM '17, CIKM '21, AdKDD '19, '20, '21, JBHI, BMC Bioinformatics, ScientificReports, Entropy, Applied Sciences
- Associate Editor for Big Data journal (impact factor: 4.426)

Organizations & Leadership:

- Trainee in Verizon Media’s SPARK inaugural Senior Leadership Fast Track Development program (first cohort of 27 people within the company of 10,000+)
- Talent in Verizon Media’s ELEVATE inaugural sponsorship and talent development program
- Graduate Students Faculty Search Committee for Temple University CIS Dept
- Founding member and corporate and alumni relations coordinator of the *Computer and Information Sciences Graduate Students Association* at Temple University
- FONIS – Students IT organization, starting November 2011 (now alumni)

Skills

- Programming and Markup Languages
 - **Expert:** Java, Python, MATLAB, Spark, Pig, Hive, SQL, L^AT_EX
 - **Intermediate:** Scala, C, C#, R, PHP, JavaScript
- Languages
 - Serbian – native language
 - English – proficient
- Other
 - Landscape photographer
