

# Djordje Gligorijevic

*"Research = Fun"*

1180 Discovery Wy, Sunnyvale, CA, USA

Applied Research Manager, Meta Ranking AI

djordjegligorijevic90@gmail.com

<https://gligorijevic.science/>

## Research Interests

My research interests encompass Machine Learning, Spatial and Temporal Data Mining, Structured Regression, Extreme Multi-Label Classification, Natural Language Processing, Large Language Models, and the Integration of Qualitative Knowledge into predictive models. I specialize in Computational Healthcare & Precision Medicine, Auction Bid Valuation & Landscape Prediction, Search, Ranking, and Recommendation Systems, along with Computational Advertising.

## Work Experience

- **Applied Research Manager** Meta 1180 Discovery Wy, Sunnyvale, CA 94089  
*Ranking AI Monetization, Meta April 2025 – present*
  - Managing a team of researchers and engineers at Meta, overseeing the Intelligent Harvesting team within the Ranking AI organization that develops and maintains model templates for accelerated harvesting of state-of-the-art ML techniques across Meta's ads ecosystem.
- **Applied Research Manager** eBay Inc. 2145 Hamilton Avenue San Jose, CA 95125  
*Search Ranking & Monetization, eBay October 2022 – April 2025*
  - Managing a team of researchers and engineers at eBay, overseeing the allocation and pricing aspects for the advanced sponsored search and ad display program Promoted Listings Preferred. Research focuses on 1) developing low-latency response prediction machine learning models, 2) refining ranking and pricing auction mechanisms, 3) developing optimization-based and predictive control-based mechanisms for budget optimization such as budget pacing and auto-bidding, 4) managing ads supply and 5) enhancing A/B testing platforms.
  - Research resulted in following manuscripts: [P2, P3,P28,P29,P30]
  - Patents: [PT8, PT9, PT10]
- **Senior Applied Researcher** eBay Inc. 2145 Hamilton Avenue San Jose, CA 95125  
*Search Ranking & Monetization, eBay November 2021 – October 2022*
  - Tech lead for sponsored search allocation and pricing, responsible for charting short- and long-term research plan and planning product proposals and improvements.
  - Response prediction models for sponsored search. Developed continual learning low-latency prediction, ranking and calibration models for eBay search system based on structured and unstructured data used for ads ranking and pricing. Developed and launched model distribution system which sped up model calibration and weights refresh rate 100 times.
  - Ad spend control. Developed a search system simulator with counterfactual response generator for developing and evaluating budget pacing algorithms, and implemented system for controlling ad spend in sponsored search campaigns from the ground up.
- **Research Scientist** Verizon Media, 701 1<sup>st</sup> Ave, Sunnyvale, CA 94089  
*Yahoo! Research, Verizon Media July 2018 – November 2021*
  - As a member of Demand Platforms R&D team: 1) Developed novel conversion prediction models for both prospective and retargeting advertising on trillions of data points, 2) Developed deep algorithms for modeling users' activity trails, and 2) Led science efforts in the bid shading project for first-price auctions bidding.

- As a member of Targeting & Insights team: 1) Developed lightweight and high performing click-through rate model, 2) Led science efforts for contextual conversion prediction and audience building products in the cookieless online world.
- Trainee in *SPARK* inaugural Senior Leadership Fast Track Development program, 12 months program (first cohort of 27 people within the company of 10,000+) and talent in *ELEVATE* inaugural sponsorship and talent development program
- Research resulted in following manuscripts: [P4, P5, P6, P7, P8, P9, P10, P12]
- Patents and defensive publications: [PT1, PT2, PT3, PT4, PT5, PT6, PT7]

- **Academic Research Collaborator** IQVIA, 1 IMS Dr, Plymouth Meeting, PA 19462  
*IQVIA* September 2017 – July 2018
  - Developed novel site selection optimization system for clinical trials with the IQVIA contract research organization, based on deep models for matching clinical trials and investigators.
  - Proposed novel approaches for modeling disease progression from mild cognitive impairment to Alzheimer’s disease.
  - Research resulted in following manuscript: [P14]
- **Research Scientist Internship** Oath, 701 1<sup>st</sup> Ave, Sunnyvale, CA 94089  
*Yahoo! Research* June 2017 – September 2017
  - I have re-joined Yahoo Research Ad Sciences team for the summer 2017 internship. Project I worked on was developing a deep click-through rate prediction algorithm for sponsored search and mobile app install advertisements trained on billions of data examples in a distributed environment.
  - Research resulted in following manuscripts: [P13, P17]
- **Research Scientist Internship** Yahoo! Inc., 701 1<sup>st</sup> Ave, Sunnyvale, CA 94089  
*Yahoo! Research* May 2016 – August 2016
  - I have joined Yahoo Research Ad Sciences team for the summer 2016 internship, during which I have worked on integrating mobile app usage events from Flurry SDK with Yahoo email receipts to provide personalized ad recommendations based on smartphone usage habits of a user. In addition, I collaborated with teammates on developing neural embedding models for location aware sponsored search.
  - Research resulted in following manuscripts: [P19, P31]
- **Research Assistant** Temple University, Philadelphia, PA, USA  
*Center for Data Analytics and Biomedical Informatics* Fall 2013 – Spring 2018

My graduate research program included writing papers, monthly and quarterly reports and attending meetings and workshops on several major grants:

- DARPA funded *Prospective Analysis of Large and Complex Partially Observed Temporal Social Networks*
  - \* Modelling predictive uncertainty estimation of Conditional Random Fields for evolving graphs.
  - \* Research resulted in following manuscripts: [P21, P22, P23, P24, P25, P26, P27]
- ONR funded *Structured Regression in Complex Networks by Fusion of Qualitative Knowledge and Big Data*
  - \* Fusing large scale hospital discharge records databases with medical domain knowledge sources in order to obtain novel and meaningful insights and advance precision medicine.
  - \* Research resulted in following manuscripts: [P15, P21, P22, P23]

- NSF funded *BIGDATA: Multi-level predictive analytics and motif discovery across massive dynamic spatio-temporal networks in complex socio-technical systems: An organizational genetics approach*

- \* Correlating comorbidity and genetic disease networks across age, gender, and geography from large scale hospital discharge records databases.

- \* Research resulted in following manuscripts: [P11, P21, P22, P24]

\* *Awarded with Outstanding Research Assistant award by College of Science and Technology in 2018, and with gold award on the Future of Computing graduate research competition 2015 by CIS department.*

## Teaching Assistant

Temple University, Philadelphia, PA, USA

Computer and Information Sciences Dept.

Fall 2013 – Spring 2017

Served as a teaching assistant for the following courses:

- CIS 2168: Data Structures (Spring 2017, with prof. Andrew Rosen)
- CIS 2033: Introduction to Computational Probability and Statistics (Spring – Fall 2015, with prof. Yuhong Guo, Fall 2016, with prof. Richard Beigel)
- CIS 1166: Mathematical Concepts in Computing I (Discrete Mathematics) (Spring 2016, with prof. Edward Crotty)
- CIS 0823: Math for a Digital World (Fall 2013 - Fall 2014, with prof. Richard Beigel)

\* *Awarded with the Outstanding Graduate Teaching Assistant award by CIS department in 2017.*

## Undergraduate Teaching and Research Associate University of Belgrade, Belgrade, Serbia

Laboratory for Multimedia Communication

July 2012 – May 2013

- Computer networking and telecommunications – Fall 2012 class, assisting professor and teaching assistants during labs and exams.

## Undergraduate Teaching and Research Associate University of Belgrade, Belgrade, Serbia

Laboratory for Artificial Intelligence

October 2011 – May 2013

- Open-source development of neural network software tool: Neuroph Studio; Research on Semantic Web annotations and its applications; Assisting professors in grading during exams.

## Education

### Temple University

Philadelphia, PA, USA

Doctor of Philosophy (PhD),

2013 - 2018

- Major: Computer & Information Sciences (CIS) Dept., College of Science and Technology
- Concentration: Machine Learning and Data Mining
- Graduation date: July 2018
- Dissertation title: Predictive Uncertainty Quantification and Explainable Machine Learning in Healthcare

### University of Belgrade

Belgrade, Serbia

Bachelor of Science (B.Sc.)

2009 - 2013

- Information systems and technologies, Faculty of Organizational Sciences
- Graduation date: July 2013

## Awards, Grants & Honours

Runner-up Best Paper AdKDD 2019 workshop . . . . .	2019
<b>Outstanding Research Assistant Award</b> , <i>College of Science and Technology</i> , Temple Uni.	2018
SIGIR conference Travel Award . . . . .	2018
<b>Outstanding Graduate Teaching Assistant Award</b> , <i>CIS department</i> , Temple University	2017
<b>Future of Computing graduate research champion</b> , <i>CIS department</i> , Temple University	2015
Runner-up Best Doctoral Forum Poster SDM 2015 . . . . .	2015
SDM conference Travel Award . . . . .	2015
Fellowship for Graduate Students, Republic of Serbia . . . . .	2013–2017
Dean’s List of Distinguished Students . . . . .	2010–2013

## Extracurricular Activities & Services

### Academic:

- **Associate Editor** for Big Data journal (impact factor: 4.426)
- **Organizer and Chair, Senior Program Committee:** The First Workshop on Generative AI for E-Commerce, The Second Workshop on Generative AI for E-Commerce, SDM '25
- **Program Committee:** AMIA '16, '17, '18, '20, '21, ICDM '17, CIKM '21, '22, '23, '24, '25, SDM '23, KDD '25, RecSys '25, AdKDD '19, '20, '21, '22, '23, '24 '25, PAKDD '24, JBHI, BMC Bioinformatics, ScientificReports, Entropy, Applied Sciences

### Organizations & Leadership:

- Trainee in eBay’s **Leading at eBay: Foundations** leadership 6-months development program
- Trainee in Verizon Media’s **SPARK** inaugural Senior Leadership Fast Track Development program, 12 months program (first cohort of 27 people within the company of 10,000+)
- Talent in Verizon Media’s **ELEVATE** inaugural sponsorship and talent development program
- Graduate Students Faculty Search Committee for Temple University CIS Dept
- Founding member and corporate and alumni relations coordinator of the *Computer and Information Sciences Graduate Students Association* at Temple University
- FONIS – Students IT organization, starting November 2011 (now alumni)

### My talks, attended conferences, workshops and symposiums (attendee/presenter/lecturer):

- Talk “Bid Shading in the Brave New World of First-Price Auctions” at InMobi, San Mateo, CA, September 2023
- Keynote “Deep Learning Methods for Modeling User Behavior in Display Advertising ” at IEEE CCWC 2022, January 2022, Virtual
- Talk “Explainable Machine Learning in Healthcare” at City AI Kragujevac, May 2020, Virtual
- Course “Machine Learning and Data Mining in 900 minutes or less” taught to Verizon and Verizon Media’s engineering teams in Bangalore and Hyderabad, 26th Nov. 2018. – 7th Feb. 2019.

- Talk “Deep Attention Model for Triage of Emergency Department Patients” at Data Science Conference 4.0, September 2018, Belgrade, Serbia
- Talk “Modeling Uncertainty in Structured Regression” at Yahoo Research, August, 2017, Sunnyvale, CA USA
- Talk “Modeling Qualitative and Quantitative Knowledge in Health Informatics” at 2017 Sinteza conference, Singidunum University, April 21st, 2017, Belgrade, Serbia
- Talk “Predictive Modeling of Dynamic Networks” at 2016 Computational Research on-and Beyond Owlsnest (CROO) Symposium, College of Science & Technology, Temple University, April 15th, 2016, Philadelphia, PA USA
- Talk “Structured regression on partially observed evolving graphs with uncertainty propagation” at DARPA GRAPHS/SIMPLEX Workshop: Data, Algorithms and Problems on Graphs, September 28th, 2015, Columbia University, New York, NY
- DARPA GRAPHS PI Meeting/Workshop 21-24 July 2014, Arlington, VA, USA
- DARPA GRAPHS Kick-Off/Special Project Workshop 13-14 May 2014, Arlington, VA, USA
- **Attendee** on conferences: SDM '14, '15, AAAI '15, SIGIR '18, CIKM '20, '24, WWW '19, '24, ICML'20, KDD '19, '20, '23

## Skills

- Programming and Markup Languages
  - **Expert:** Java, Python, MATLAB, Spark, Pig, Hive, SQL,  $\text{\LaTeX}$
  - **Intermediate:** Scala, C, C#, R, PHP, JavaScript
- Languages
  - Serbian – native language
  - English – proficient
- Other
  - Landscape photographer
